

Job Description

Production Process Operator

Weekday Days - Standish

Job Title	Production Process Operator - Weekday Days Shift
Department	Production
Reporting to	Production Supervisor
Responsible for	N/A
Location	Standish Site
Hours of Work	Monday - Thursday 6am - 6pm
Contract	Permanent [6 Month probation period]

Job purpose The main purpose of the Process Operator is batch manufacture of our products. This role also includes many other aspects of manufacturing and will work as an integral part of the production team. The position includes retrieving, weighing, and mixing/reacting chemical ingredients. Monitoring of equipment during the chemical process and recording information to ensure quality, safety and efficiency are requisites of the role. All aspects of site operations must be completed in a safe, timely and professional manner reporting any problems which arise.

The Production Process Operator is required to assist in the improvement of processes or products by reporting observations during the manufacturing process and to work with the production team members in order to aid development of best processes and products.

- Responsibilities**
- Ensure that all process and operational activities associated with batch manufacture are carried out in compliance to the sites Health, Safety, Environmental and Quality requirements
 - To manufacture products according to details and instructions stated on the formulation batch sheet and specification, and to report in writing any deviations from these procedures immediately to the appropriate parties.
 - To make accurate additions or adjustments to the process when instructed by Laboratory Staff
 - To complete all necessary documentation accurately and in a timely manner
 - Immediately report any incidents that the management need to address using the appropriate reporting systems
 - Respond to required corrective and preventive action in a timely manner
 - FLT operator duties as required [subject to licence]
 - Any other reasonable tasks as requested by the Directors and Management of the Company would also be included in the responsibilities
 - Monitoring of raw materials requirements and informing supervisor when finished products are suitably packaged for movement to the warehouse.
 - Participate as required in design / Hazard reviews
 - Maintain workplace to a good housekeeping standard
